ORGANIC RICE MALTODEXTRIN

MODIFY VISCOSITY, CARRY FLAVOR

Organic rice maltodextrin is a fine, white powder with a neutral to very slightly sweet flavor. It has excellent absorption and flavor carrying properties which make it a preferred ingredient for spray drying liquids and creating powdered seasonings.

Maltodextrin is useful for stabilizing emulsions, building viscosity and creating smooth textures — especially in reduced fat products. Try it in sweet or savory dips, sauces, salad dressings, puddings and desserts.

In the nutrition industry, rice maltodextrin can be found in meal replacement powders as a source of carbohydrates. It is also used as a compressible carrier for tablet supplements, and to improve the softness and chew in gummy supplements or confections. In panned candies and hard lozenges, the addition of maltodextrin creates a glossy, low-tack surface.

FARMER'S FRIEND

Organic rice maltodextrin is produced from organic and non-GMO rice under the Kisan Dost (Farmer's Friend) platform which positively impacts the livelihood of rice growers. Ask us for more information.
