

CIRANDA

Ingredients That Inspire Change.

Endless Uses In Food & Beauty

Coconut products have been consumed for thousands of years by populations in tropical regions of the world for their perceived health benefits.

Products

Organic Coconut Oil
Extra Virgin (EVCO)*

Organic Coconut Oil
Refined (RBD)*

*Regenerative Organic Certified®
and Fair Trade Certification is
available

CIRANDA offers two types of organic coconut oil: **Extra Virgin Coconut Oil (EVCO)** and **Refined Coconut Oil (RBD)**. Our organic **Extra Virgin Coconut Oil (EVCO)** is packed with nature's best left intact. One coconut tree produces 65-120 nuts per year. Coconut meat is washed, ground and dried by continuous oven. Next, the desiccated coconut goes through expeller press to yield EVCO, which is then filtered and packaged. It's great for cooking, but is also used in sauces, dressings and entrees. Add a tropical flare to your next innovation with a hint of coconut flavor.

If you're looking for a neutral flavor, color and odor, CIRANDA'S organic **Refined Coconut Oil (RBD)** is the oil for you. It's a clean slate so your flavors can come through on your next project. To make RBD coconut oil, farmers crack open the coconuts, remove the white meat and dry (copra), and then the oil is decolorized and deodorized. It's used in various applications that range from food, cosmetics, and skincare to the pet food category.

Sourced With Care

Our coconut ingredients are sourced from multiple suppliers across the Philippines to ensure consistent supply. Fair Trade and Regenerative Organic Certified® (ROC) certifications are available upon request. ROC products require USDA Organic certification, farmworker fairness, and a soil program which is overseen by the 501(c)3 nonprofit Regenerative Organic Alliance.

Key Benefits

- NEW! Regenerative Organic Certified®
- Rich source of lauric acid
- Source of medium chain fatty acids
- Vegan, trans-fat free, cholesterol-free & compatible with ketogenic diet
- Antimicrobial, antifungal, & antibacterial properties
- Long shelf life, resistant to oxidation

Application	Examples	Function
Bakery	Breads; muffins; crepes; bars; cookies; pies; mixes	Provides flavor; crispiness; sautéing
Body & Hair Care	Cosmetics; soaps; lotion; shampoo; hair treatments	Extrusion aid; keeps skin moisturized; provides moisture and shine to hair; antimicrobial properties
Infant Nutrition	Baby food; formula; toddler snacks	Source of medium chain fatty acids; easily digestible fat
Non-Dairy Alternative	Non-dairy milk & frozen desserts	Provides flavor and creaminess to replace dairy fat
Pet Food & Treats	Biscuits; dog/cat food	Source of medium chain fatty acids for shiny coat
Prepared Foods	Entrees; soups; sauces; dressings	Provides flavor; crispiness; sautéing; prevents stickiness in prepared rice and noodle dishes
Snack	Crackers; granola; snack bars	Topical spray coating for texture and mouthfeel; commonly used for frying of snack chips
