## **ORGANIC LECITHIN LIQUID**

### **ACHIEVE MORE STABLE BLENDS**

Lecithin is widely used in chocolate manufacturing to modify viscosity and reduce cocoa butter content, but its functional properties extend far beyond chocolate.

Lecithin's dual surface-active lipophilic (oil-friendly) and hydrophilic (water-friendly) properties produce stable emulsions of water and fat. This unique characteristic makes lecithin very useful in applications like salad dressings and plant-based spreads to create shelf-stable products that resist separation.

In margarines and spreads, liquid lecithin is preferred for promoting soft, spreadable products. It creates an anti-spattering effect in frying oils and cooking sprays. In snack bars and soft confections, liquid lecithin acts as a release agent to reduce tackiness and prevent the product from sticking to packaging wrappers. These are just a few of the functions that have earned lecithin the title of one of the most versatile food ingredients.

#### **LECITHIN EXPERTISE**

Ciranda's organic liquid lecithin is produced by Lecico, an established German company focused solely on the production of high quality lecithins and phospholipids.

#### **PRODUCTS**

- Organic Soy Lecithin Liquid
- Organic Sunflower Lecithin Liquid

*Contact us for conventional non-GMO soy and sunflower powdered lecithin; and organic or non-GMO liquid lecithin from soy, sunflower and canola.*

# ORGANIC LECITHIN LIQUID

Soy Lecithin

Sunflower Lecithin

## PACKAGING

DRUM	440.92 lb (200 kg) metal drum, 4 per pallet
CARBOY	55.11 lb (25 kg) HDPE plastic, 32 per pallet
TOTE	2204.25 lb (1000 kg) IBC container, 1 per pallet

## KEY BENEFITS

- Organic, non-GMO, kosher, gluten-free
- Stabilizes water and fat systems
- Disperses and suspends powders into liquids
- Controls viscosity of liquids and semi-liquids
- Prevents foods from sticking to surfaces

## PHYSICAL PROPERTIES

ASPECT	Fluid
AROMA	Typical
COLOR	Yellow-brown (Soy) / Amber-brown (Sunflower)
FLAVOR	Typical

APPLICATION	EXAMPLES	FUNCTION
<b>BAKERY, CEREALS &amp; SNACKS</b>	Bread; cookies; muffins; waffles; breakfast cereals; pretzels; crackers; bars	Improves distribution of ingredients throughout the dough; stabilizes and elasticizes the gluten structure; extends shelf life; improves mixability and machineability; provides fermentation stability; aids in pan, mold and belt release; inhibits ice crystal formation in frozen doughs
<b>CONFECTIONERY</b>	Chocolate; caramel; toffee; soft chews; hard candies; chewing gum; fillings; icings	Inhibits sugar recrystallization and fat migration; improves viscosity; allows cocoa butter reduction in chocolate systems; extends shelf life; enhances product softness and smoothness; reduces tackiness; aids in distribution of colors and flavors; aids in fat reduction
<b>COOKING SPRAY</b>	Aerosol cooking oil spray	Improves dispersion and release; anti-spattering
<b>DAIRY &amp; NON-DAIRY</b>	Milk; butter; margarine; cheese; yogurt; ice cream; liquid creamer	Stabilizes emulsion of water and fat; wetting and instantizing agent for powders; inhibits crystallization in frozen products; aids in release of sliced products; creates softer, more spreadable and spoonable products
<b>DRESSING, SAUCES &amp; SPREADS</b>	Salad dressing; mayonnaise; cooking sauces; nut butter; pudding	Stabilizes emulsion to prevent separation; soft texture and improved mouthfeel (especially in reduced-fat products); anti-spattering effect; increased shelf life; improves spreadability
<b>INSTANT PRODUCTS</b>	Infant formula; soup mixes; powdered beverage mixes	Excellent wetting and instantizing agent; enhances powder solubility; dust control; nutritional ingredient
<b>NUTRA &amp; PHARMA</b>	Meal replacement powders and beverages; capsules	Wetting and instantizing agent to improve solubility in dry powders; emulsion stabilizer in liquid meal replacement; nutritional ingredient
<b>PET &amp; ANIMAL NUTRITION</b>	Wet or dry pet food; treats; gravies and toppers	Uniform ingredient distribution; extrusion and release aid in formed kibble; emulsifier for fat antioxidants; dust control; nutritional ingredient
<b>PREPARED MEALS</b>	Rice and bean ready-packs	Reduces stickiness and clumping
