

**CIRANDA**

Ingredients That Inspire Change.

## Endless Uses In Food & Beauty

Coconut products have been consumed for thousands of years by populations in tropical regions of the world for their perceived health benefits. And various industries utilize coconut oil for its anti-fungal, anti-microbial and anti-bacterial attributes.

### Products

Organic Coconut Oil  
Extra Virgin (EVCO)

Organic Coconut Oil  
Refined (RBD)

CIRANDA offers two types of organic coconut oil: **Extra Virgin Coconut Oil (EVCO)** and **Refined Coconut Oil (RBD)**. Our organic **Extra Virgin Coconut Oil (EVCO)** is packed with nature's best left intact. Coconut meat is washed, ground and dried by continuous oven. Next, the desiccated coconut goes through expeller press to yield EVCO, which is then filtered and packaged. It's great for cooking, but is also used in sauces, dressings and entrees. Add a tropical flare to your next innovation with a hint of coconut flavor.

If you're looking for a neutral flavor, color and odor, CIRANDA'S organic **Refined Coconut Oil (RBD)** is the oil for you. It's a clean slate so your flavors can come through on your next project. To make RBD coconut oil, farmers crack open the coconuts, remove the white meat and dry (copra), and then the oil is decolorized and deodorized. It's used in various applications that range from food, cosmetics, and skincare to the pet food category.

### Sourced With Care

Our coconut ingredients are sourced from multiple suppliers across the Philippines to ensure consistent supply. One coconut tree produces 65-120 nuts per year. Farmers are offered a premium for each coconut harvest allowing them a fair living wage. Fair Trade certification is available upon request.

# Key Benefits

- Source of medium chain fatty acids
- Rich source of lauric acid
- Compatible with ketogenic diet
- Vegan, trans-fat free & cholesterol-free
- Antimicrobial properties
- Long shelf life, resistant to oxidation

Application	Examples	Function
<b>Bakery</b>	Breads; muffins; crepes; bars; cookies; pies; mixes	Provides flavor; crispiness; sautéing
